

GENUS™ SERUM

Testimonial : 1

I have high blood pressure and I am very sensitive to all medications. My husband had been encouraging me to try the Genus Serum for about one week but I was hesitant. He gave me two drops in a glass of water and within three hours, I checked my blood pressure and it had dropped significantly. It remains normal after three weeks and I also notice that I have more energy.

GENUS™ SERUM

Testimonial : 2

Since being introduced to Genus Serum, I have been taking two drops of the serum in a glass or bottle of water three times per day. I immediately noticed that I was sleeping more soundly. My wife and I both experienced allergies (pollen, grass, etc.) After two weeks of my taking the serum, when my wife and I would go out together, my wife would complain of sinus pressure and head congestion. Usually, we both experience these symptoms during allergy season. After twice telling my wife that I had no allergy symptoms, I realized that the anti-inflammatory efficacies of Curcumin could be directly connected to my lack of allergy symptoms, as I was not taking any over the counter allergy remedies.

GENUS™ SERUM

Testimonial : 3

I am a sales manager and my job requires me to be actively involved in Client relationships. Most of the time, I am out meeting Clients. I used to get tired easily and my day slows down by 3 p.m. I also had difficulty getting up to work in the mornings and do have frequent mood swings. I have tried many types of supplements to improve, although it did help but it did not give me the energy that I required. My skin looked tired and dull even though I reapplied my makeup during the day. After being introduced to Genus Serum, I noticed significant changes within six weeks, my mood swings improved tremendously and I was able to get up for work with a lot more energy. In addition, my body went through changes as I was beginning to lose weight, I used to wear a size 12 dress and now I am able to fit into a size 6 in just over 2 months. Further to that, I'm now full of energy till late evenings which helped me focus on my work better. My colleagues have complimented that they noticed that my skin has a glow now. Genus Serum is great for anyone wanting to be energetic, confident and to be in great shape, to feel good and look good. Thank you, Genus Serum.

GENUS™ SERUM

Testimonial : 7

When I first started taking Genus Serum I noticed more energy right away. My bowels started flowing and I was going to bed early, and having some really solid sleeps. I was feeling great. Plus I started to lose a little weight. About 3 weeks into it my sinuses became plugged. My head was a little heavy. I knew to expect some detoxifying effects so I wasn't worried. It lasted about 4 days. I feel good now a month and a half into it. I enjoy the tasted. I like it with warm water. I also can tell if I skipped taking it. My body wants to have it.

GENUS™ SERUM

Testimonial : 9

My name is Bill Jacobson from Two Rivers WI USA. For years I have suffered from pain and aching stiff joints making it hard to exercise and adding to my obesity problem. After a visit to the doctor I found that I had some liver damage due to all of the Ibuprofen and other NSAID's I was taking daily. I decided that I needed to find a healthier and more natural way to deal with my pain and I found that Curcumin could help me. I tried Curcumin in capsule form and it helped a little. Then I bought Curcumin in powder form and experimented with ways to increase its bio-availability and that worked better but it was also time consuming and messy. Then I found out about Genus Serum, it was an answer to my prayers. Genus Serum is water soluble and 100% bio-available. It is so easy to use, I just put a couple drops in a water bottle and shake it up and I am ready to drink it. Since I started using Genus Serum my knees feel better than they have since I was a kid. There is absolutely no pain or stiffness anymore anywhere in my body. As an added bonus my mind seems much clearer and sharper, I have better concentration. And with less pain I am able to enjoy life more and have fun with my children and grandchildren. Thank you Genus Serum,

you have changed my life!

Bill Jacobson

I'm George Bajich and have been a faller on the West Coast of British Colombia, Canada for 34 years. The job is extremely demanding so your body needs to be in top physical condition. Energy, strength and stamina all are being a part. Since taking Genus Serum for 5 weeks twice a day with a glass of water, I have noticed my skin is more vibrant. I have also noticed that my digestive system is working properly, because the organs in my body feel clean and are also working properly, which keeps my energy level up. My strength and stamina are also very good. I am looking forward to seeing the longer term benefits of Genus Serum, to maintain my youth and vitality. I highly recommend this product to anyone who is looking to gain an edge on health.

GENUS™ SERUM

Testimonial : 11

The family is only using Genus Serum for two months and we have experienced many of its healthful benefits. Drinking water with this herbal product relieves me now from my hyperacidity, which before really weakens me as the acid rises up from my stomach. I did not take anymore the medicine that the doctor prescribed to me. Also, my right eyelid used to have an inflammation inside, called sty since last summer which caused me discomfort in my vision. But now, it is already gone attesting that indeed Genus Serum is effective against infection. I am also super energized in my work and still enjoy very sound sleep at night. Surprisingly, my friends also have noticed that my physical body has slimmed down which is a bonus for me. Now Genus, is very much a part of our daily habits in regards to liquid intake.

GENUS™ SERUM

Testimonial : 13

I was Mr. India for 2 yrs. running, in 2005 and in 2006. I quit competitive bodybuilding for some time now. In late 2011, I resumed back my training for bodybuilding as I wanted compete again, but I could only manage 3 days a week even with a light workout. My muscles get very sore and body needing more time now to recover due to the long layoff I had. After taking Genus Serum for about a week only, I find my muscles recover very much faster and I feel less fatigue. Even though I do a more intense and strenuous workout regime I am able to train again the very next day. Amazingly I could now train 5-6 days a week with a much tougher workout routine and still don't feel the soreness. Genus Serum really gives me a huge boost. In terms of my recovery and I feel I got more power. Genus Serum also boost my confidence level I feel much stronger now. I am confident of myself given the fact I just resumed training recently, I am now preparing for 2013 All India Competition. Thank You Genus Serum.

GENUS™ SERUM

Testimonial : 14

As an avid bodybuilder and a fitness enthusiast I am on Genus Serum and this is really an amazing herbal remedy for my muscle recovery, repair and energy release. Daily I consume about 8-10 drops along with my beverage like protein shake and I now feel my day starts completely fresh, my mind and body full of energy and more importantly this energy rush is being maintained throughout the day. This comes as a shock to me because of the long working hours I need to clock. My typical day starts at 7 a.m. and ends at 10 p.m. My job requires me be alert, attentive and focused throughout the day, where I train my clients to achieve their fitness goals, at times I have back-to-back appointments and this could stretch over 6 hrs. without any breaks in between, hence rather draining physically and psychologically. To add on, I do my own physically challenging workouts 6 days a week to keep up with my fitness. Genus Serum has shown to be a powerful antioxidant because in spite of all these I can maintain my energy levels throughout the day and stay focused till my last appointment. My recovery from workout is much faster now and DOMS (delayed onset muscle soreness) lasts less than a day whereas it used to last up to 3 days after my workouts.

I also suffer from morning sickness (nasal congestion, sneezing, heavy headedness), but ever since I started on Genus Serum a month ago, I don't have a recurrence nor experience such symptoms in the mornings anymore. This gives me assurance that Genus Serum works pretty well as an anti-inflammatory too.

Being an Indian and having followed the Indian diet for the past 35 yrs. , even though Turmeric is a main component in our food preparation, i haven't felt this good before or the benefits of turmeric as strong as this. It is clear to me with the superior absorption in Genus Serum, the benefits of Turmeric is fully felt in just a drop.

Thank You, X-Lab for coming up with this wonderful natural remedy which I strongly believe can be a cure for the many medical disorders that exists today.

GENUS™ SERUM

Testimonial : 15

I used to sweat profusely and maintain drugs for my hypertension for many years. I thought these are all signs of advancing in years and have taken them as normal despite the discomforts. I am quite efficient in my work as an Agriculturist at the Department of Agriculture but I am affected adversely in my performance of duties. Things took another turns when I was introduced to Genus Serum. In just about one month, my blood pressure became normal and now I am no longer taking my maintenance drugs. I do not sweat profusely anymore while my physical body has slimmed down. I also believe firmly that Genus Serum has caused detoxification because of frequent urination, good bowel movement and removal of toxic gases. More than all these benefits, I am super-energized everyday and can still do physical exercise after office hours. What tremendous benefits I am getting from Genus Serum.

GENUS™ SERUM

Testimonial : 16

I was absent from work because of severe cough and colds and was physically down for two days. Antibiotics were not effective anymore due to constant use. My loving wife, Mavic, prepared drinking water with few drops of Genus Serum. I got healed within two days and felt like nothing had happened and was able to go back to work highly recharged. That started my regular use of this herbal remedy, further allowing me to discover more of its healing benefits. I have experienced its detoxifying effects such as frequent and very obnoxious urination, bowel movement and flatulence. I feel alert and strong throughout the whole day as I do my work in the office now and enjoy very good sleep during the night. How I am so thankful to my wife for making me use this product (Genus Serum) that gives me a sense of complete healing.

GENUS™ SERUM

Testimonial : 17

Tooth extraction is my business as I am a lady dentist. My work demands lots of energy specifically physical strength in examining and extracting infected tooth of patients. Many times, after two to three patients, I feel exhausted, would rest my feet on a stool while some patients are waiting outside my clinic. I am already advancing in age, which is 50 years old, and fearful that I may not be productive anymore in the coming years due to poor health. I was relieved when I started using Genus Serum and experience its many benefits. I am consistently highly energized everyday and am doing now my occupation with pep despite the daily rigors. At the same time, I am able to enjoy a sound sleep now. My husband, Samuel, is also experiencing the super energy that Genus Serum provides daily as he performs his work in construction as a Civil engineer. Living life now is healthful and enjoyable because of Genus Serum.

GENUS™ SERUM

Testimonial : 18

I am an electrical engineer working in a poultry processing plant with global scope for more than 20 years already. Attendant to my work are the frequent and strenuous travels to other countries and rigid work on the repair and proper maintenance of poultry processing plants. This situation caused physiological and physical discomforts such as high cholesterol, high uric acid along with painful joints in the legs and knees. I have been taking maintenance drugs to keep me fit for the work for a long time until I learned about Genus Serum. I began taking few drops of this herbal remedy and felt relief from my arthritic pains in the joints after about one week. I had also my blood chemistry examination afterwards. My cholesterol and uric acid levels have gone down. Interestingly, the product works also causes anti-ageing since my friends and relatives are saying that my skin has improved a lot with lessened blemishes incurred due to my work. Likewise, my wife, a retired Pharmacist, is also enjoying the comforts from not having arthritic pains which she used to endure for a long time. We both enjoy the super-energizing effect as well as detoxifying property through frequent urination and very good bowel movement. Thanks to Genus Serum, we are truly enjoying our life with good health.

GENUS™ SERUM

Testimonial : 19

I am an associate professor in a state university and handle courses in Horticulture. I have been teaching for almost thirty years now. Before using Genus Serum, I got easily tired, unfortunately with arthritis and hyperacidity weakening my physical body and adversely affecting my performance as a professor as well as in attending to domestic household chores. I also had a fibro cyst in my armpit, inwardly causing fear to me, too. Genus Serum works like magic to me. After only about one week of regular use, my arthritis and hyperacidity were gone. I am now enjoying my working days at the office, with energy being stretched even after five pm at home and still sleep so soundly at night. The size of the fibro cyst in my armpit is also markedly reduced, thus removing my fear. My husband, an electrical engineer, has seen the improvement in my health and likewise, has become a regular user of the herbal remedy and has become an advocate of its many benefits to his friends. Today, my whole family is using Genus Serum regularly in our drinking water. We feel very satisfied and relieved because we are experiencing true health benefits of Genus Serum.

Testimonial : 22

I have been taking Genus Serum for the last 2 months now. And the very tangible benefit that I have experienced after about 3 weeks of taking it was the significant reduction of pain in my knees due to arthritis. This has allowed me to go up and down the stairs with greater flexibility and less discomfort. Also, I noticed that I have higher energy levels nowadays; this was clearly manifested to me when I was able to work until the wee hours of the morning for 2-3 consecutive days in order to finish a report due for submission.

My Name is Mr. Fun from Singapore and I had my psoriasis condition for the past 30 years without any possibility of healing. The condition had taken a psychological stress on my family life as well as my work as I drive a taxi in Singapore. My Skin clinic told me that there was now cure for this condition as it has spread all over my entire body. I was introduced to Genus Serum and was advised to consume 3 x 5 drops in a bottle of water (1.5 liter) and drink this solution through the day. Amazingly, after only 3 days of the treatment, my condition has so much improved that even my friends could not believe what is happening. I have been taking Genus Serum now since January of 2014 and today, my entire body has been transformed into a healthy and normal skin condition. After so many years of agony and suffering, I can now enjoy life to the fullest, thanks to Genus Serum!

GENUS™ SERUM

Testimonial : 25

My name is Jennie and I am 63 years old, a grandmother of my two beautiful active granddaughters who are 7 years and 8 years old. Taking care of them is not an easy task, because you got to stay active and alert at all times. I have been taking Genus Serum from year 2011 till now and I used to be plump, restless and have both my knee caps were pain. After taking for two months of Genus, I have lost quite a lot of weight, becoming more active and quick in responding . Nevertheless, my both knees is free from pain. I even brought my two granddaughters for some outing activities. I do a lot of cooking, sometimes I have hurt myself from frying with deep oil and cutting foods, I would apply externally with Genus onto my wound. I remain to take Genus Serum as my daily supplement because I have learnt from people that turmeric or curcumin can prevent away from lots of ill coming and unwanted sickness. I do not like to take pills or capsules and I feel comfortable with Genus Serum as it comes in liquid oral. This year, 2014 - March, I bought and try out the new Genus COQ10 to boost my heart and energy level. I take 10 drops of Genus Serum and COQ10 mixed into a distilled water – 1.5 liters for the whole day of my consumption. Thanks Genus product – a healthy liquid supplements to my lifestyle.
